

PRACTOLYTICS

**QUICK
TIPS**

DID YOU KNOW?

An efficient medical billing software is inevitable for an effective Revenue Cycle Management process.

Now that you have made up your mind to switch or have already switched over from your legacy systems to a much more efficient  AdvancedMD here are some *tips and tricks* which can be handy for you, while using the medical billing software.

www.practolytics.com

Simultaneous Access

With AdvancedMD, you switch between EHR and PMS and simultaneously work on both systems using the same login.

Mobile Access

Now you can view all the appointments through your mobile phone itself. Not only this, you also have the convenience of writing prescriptions on the go without logging into a computer.

Google Calendar Linking

Through AdvancedMD the provider's appointments can be linked to their personal google calendar. They can get the information even if they don't have the AdvancedMD app installed on their mobile phones.

Medication history in EHR

Now all the past and current medication history of the patient is integrated and can be accessed through AdvancedMD EHR.

Payment Through Scheduler

Through AdvancedMD scheduler, the payment gets posted to the chart directly so that the patient doesn't have to do the financials back and forth.
